

The background features a large, light blue shape on the left side, which is a stylized, angular form. To its right, there are several white geometric shapes: a large triangle pointing upwards, a smaller triangle pointing downwards, and a trapezoidal shape at the bottom right. The overall design is clean and modern, using a limited color palette of blue and white.

Thanks to its versatility and its many libraries ArredoCAD is ideal for Designers, Architects, Furniture Designers, Real Estate, Interior Designers and Renovation projects.

Create your Design faster,  
easier and more intuitively.

# A STEP TOWARDS REALITY

ARREDOCAD

DESIGNER

ArredoCAD has a library of 30,000 3D elements, including modular design objects and architectural components.

ArredoCAD's library is made up of parametric 3D elements each customizable to reproduce any manufacturer's elements (kitchens, living rooms, bedrooms, wardrobes, bathrooms, offices). ArredoCAD allows you to import objects from 3D Studio and Sketchup, or to create new objects using its solid modeler feature. Furthermore, the library is constantly updated by our partners using the best trends of design "Made in Italy".

Impress customers with Photorealistic Renderings, 360 Panoramic Views and Virtual Reality Presentations.

Besides photorealistic and 360 panoramic renderings (which you can navigate with a PC, smartphone or tablet), ArredoCAD also allows you to walk and move inside your project thanks to its Virtual Reality capabilities. The 3D Scene export has been optimized for the Visor VR Oculus, one of the most innovative visors in the market. You don't need to spend hours rendering or uploading the scene; in just a few minutes you can offer your customers an amazing experience inside the design so that they can feel and almost touch the scene created for them.
